## **Current Progress at the Site**

---

This facility is one of EPA Region III's high priority RCRA corrective action sites. In May 2002, an Environmental Indicator (EI) inspection was conducted at this facility to determine if RCRA Corrective Action is necessary.

EPA is in the process of evaluating the reports and data gathered during the inspection and will determine if a facility investigation or clean-up measures are necessary to protect human health and the environment.

## **Site Responsibility**

---

RCRA Corrective Action activities at this facility are being conducted under the direction of EPA Region 3 with assistance from the State.
